

Cass Information Systems, Inc. Named to FL100 for Freight Bill Audit Solutions

02/17/11

ST. LOUIS, MO, Feb 17, 2011 (MARKETWIRE via COMTEX) --

Cass Information Systems (NASDAQ: CASS), a leading provider of freight bill audit solutions, has been named by Food Logistics to its seventh-annual listing of the FL100, which recognizes 100 technology and solution providers that help grocery and foodservice distributors and manufacturers reach their business goals. This year, the magazine focused the theme on bouncing back through tough economic times with technology.

"Despite the harsh environment, the past year has seen a number of food and beverage companies implementing technology solutions -- especially transportation management and warehouse management systems," said Katherine Doherty, editor-in-chief of Food Logistics magazine.

"We are fortunate to serve many food industry leaders, including The Hershey Company, McCain Foods and The Dannon Company," stated John Pickering, chief operating officer, Cass' Transportation Information Services division. "Companies in the food industry have always used technology solutions to be innovative and very aggressive in seeking ways to improve their supply chain performance. We believe our services including freight bill audit/payment and business analytics play an important role in helping them achieve their goals."

About Food Logistics Food Logistics is published by Cygnus Business Media, a leading diversified business-to-business media company. The magazine serves the information needs of food, beverage and consumer packaged goods executives involved in warehousing, transportation and information technology, as well as third-party and refrigerated service providers. Through our print and online products, we provide news, trends and best practices that help more than 24,000 grocery and foodservice suppliers, distributors and retailers make better business decisions.
